

Roger Taft

Roger Taft of Laguna Beach, California, with his new Sweet 16 lathe. Roger is a retired computer programmer now with more time (and still good health) to devote to gardening and woodturning. With Roger is neighbor Jim Chretien of EventMover who arranged the delivery of the lathe. In the lathe is a block of eucalyptus from a just-felled 100 foot tree on Jim's property that was destined to fall on Roger's house. Jim and Roger are both getting some big bowls. The S16 bed gap has already come in handy.
