

Tom Hamilton

Tom Hamilton is one of our local area turners. After getting frustrated with an import machine, he started to investigate higher quality machines. To Tom's surprise, after he had chose to go with a Sweet 16, he learned that Robust President, Brent English, was an old co-worker. We've enjoyed getting reacquainted with Tom and watching him grow as a woodturner. On one of the woodturning forums, Tom recently wrote:

"Buy American. You can't go wrong buying a Robust lathe. I own a Robust Sweet 16 Long bed and couldn't be happier."
